Responsibilities: The University of Ottawa Library seeks a motivated, innovative and collegial individual to lead and develop services to support the management of digital research data through all stages of its life cycle. The successful candidate will be a creative and flexible individual who works well across disciplines, in a challenging and changing environment.

Setting: Located in the heart of the National Capital, the University of Ottawa is recognized as one of Canada’s leading teaching and research institutions. With 1,200 regular faculty and 40,000 students enrolled in over 360 programs, the University of Ottawa offers a broad spectrum of high quality programs in both English and French. For more information, see: www.uottawa.ca.

Description:

The E-Research Librarian leads initiatives that assist faculty and students in managing the lifecycle of research data resulting from research projects of all types. In collaboration with colleagues and campus partners, the incumbent develops sustainable services to support collecting, describing, preserving, accessing and re-using digital research data. The E-Research Librarian works with librarians and other campus partners to understand needs and workflows within different disciplines, and to evaluate and recommend online tools, systems and services that facilitate research data management throughout the entire research cycle.

Developing educational support for the stewardship of research data is a key aspect of this position; to this end, the E-Research Librarian will keep abreast of new norms and developing practices and policies of research funding agencies. Collaborating with colleagues and researchers across disciplines, the incumbent also contributes expertise in information science and linked open data to research projects.

ESSENTIAL QUALIFICATIONS:

1. A Master’s degree in Library and Information Studies (MLIS) from an ALA accredited institution or equivalent.

2. Four (4) years of professional experience, or fewer, depending on relevance of experience to the position.

3. Experience with the research processes used in one or more academic disciplines typically acquired through the completion of an advanced degree in a research data-intensive area.

4. Demonstrated familiarity with institutional, data, or subject repository systems.

5. Familiarity with semantic web and linked open data concepts, common metadata standards and demonstrated understanding of database technologies.

6. Demonstrated ability to work collegially and cooperatively within and across organizations.

7. Excellent interpersonal skills, oral and written communication skills, presentation and instructional skills.
8. Evidence of ability to provide leadership in program development, including the successful implementation of new services.

9. Effective oral and written communication skills in both French and English.

Rank and the salary will be commensurate with qualifications and experience.

This position is part of the APUO bargaining unit (faculty, librarians, counsellors, language teachers).

Please note that the Library is undergoing organizational restructuring. For this reason, administrative reporting relationships and/or work assignment may change during the course of the appointment.

Applications, accompanied by an up-to-date curriculum vitae, should be submitted no later than Friday, June 1st, 2018 by 5 pm.

Ms. Leslie Weir
University Librarian
University of Ottawa Library
65 University Private
Ottawa, ON

The University of Ottawa Library thanks all those who apply. Only those candidates selected for an interview will be contacted.

All qualified candidates are invited to apply; however, preference will be given to Canadian citizens and permanent residents. The University of Ottawa is an equal opportunity employer. We strongly encourage applications from women, Aboriginal peoples, persons with disabilities and members of visible minorities. If you are invited to continue the selection process, please notify us of any particular adaptive measures you might require by contacting the Office of the Associate Vice-President, Faculty Affairs at 613-562-5958. Any information you send us will be handled respectfully and in complete confidence.
JOB DESCRIPTION

POSITION TITLE: E-Research Librarian
INVENTORY NUMBER: 201965
LIBRARY: 
EFFECTIVE DATE: 
POSITION REPORTS TO: Director, Health Sciences Library

SUMMARY OF FUNCTIONS:

The E-Research Librarian leads initiatives that assist faculty and students in managing the lifecycle of research data resulting from research projects of all types. In collaboration with colleagues and campus partners, the incumbent develops sustainable services to support collecting, describing, preserving, accessing and re-using digital research data. The E-Research Librarian works with librarians and other campus partners to understand needs and workflows within different disciplines, and to evaluate and recommend online tools, systems and services that facilitate research data management throughout the entire research cycle. Developing educational support for the stewardship of research data is a key aspect of this position; to this end, the E-Research Librarian will keep abreast of new norms and developing practices and policies of research funding agencies. Collaborating with colleagues and researchers across disciplines, the incumbent also contributes expertise in information science and linked open data to research projects.

MAIN ACTIVITIES:

1. Works closely with colleagues to further develop library services relating to research data management across all disciplines, enabling faculty, students and researchers to better manage, describe, preserve, make available and potentially reuse research data.

2. Promotes best practices associated with research data management and provides guidance to librarians and researchers on issues and challenges related to research data.

3. Provides expertise in writing research data management plans to meet funder requirements as part of the grant application process.

4. Participates in campus initiatives, committees, and task forces related to research data management and storage, and in developing policies for research data management as part of the campus research community.

5. Monitors developments in research data standards and best practices, and participates in discussions regarding cooperative research data curation and research data life cycle management activities and services at local, regional, national, and international levels.

6. Undertakes special projects or initiatives as assigned.

RELATIONS:

1. Frequent communication with librarians and library employees.

April 2018
2. Regular communication with faculty, researchers and students.

3. Regular communication with the Office of the Vice-President, Research, and other campus departments and services.

4. Regular communication with colleagues in peer institutions.

5. Occasional communication with representatives of research funding agencies.

**ESSENTIAL QUALIFICATIONS:**

1. A Master's degree in Library and Information Studies (MLIS) from an ALA accredited institution or equivalent.

2. Four (4) years of professional experience, or fewer, depending on relevance of experience to the position.

3. Experience with the research processes used in one or more academic disciplines typically acquired through the completion of an advanced degree in a research data-intensive area.

4. Demonstrated familiarity with institutional, data, or subject repository systems.

5. Familiarity with semantic web and linked open data concepts, common metadata standards and demonstrated understanding of database technologies.

6. Demonstrated ability to work collegially and cooperatively within and across organizations.

7. Excellent interpersonal skills, oral and written communication skills, presentation and instructional skills.

8. Evidence of ability to provide leadership in program development, including the successful implementation of new services.

9. Effective oral and written communication skills in both French and English.
